

Dear LSA Quarterly reader,

You are reading this because you have read my article, "How to make a Fortune..." in the last LSA Quarterly. Thank you very much, I hope you liked it!

But where is the recording link?...

When I took my Renaissance guitar off the case in August, I noticed some weird rattling sound when I plaid the lowest notes. And then I realised a strut had gone wrong - probably because of this summer very hot and dry weather.

And in August, the luthiers are in holidays. And when they come back... they are overworked!

So I had to postpone recording the tune for the moment. Please come back later.

Thanks a lot,

G rard Rebour
